Professional Summary

Passionate Full Stack Developer with extensive experience building modern web applications using cutting-edge technologies such as React, Vue.js, Node.js, Laravel, and more. Skilled in designing scalable, efficient, and secure solutions while working in fast-paced Agile environments. Eager to contribute innovative ideas and technical expertise to dynamic teams.

Work Experience

Full Stack Developer – 4Tech Lab

December 2023 – December 2024 | Casablanca, Morocco

- Developed responsive web applications using Nuxt.js, Vue.js, React, and Svelte.
- Built back-end systems with Laravel, Symfony, Node.js, and Express.
- Implemented e-commerce solutions (PrestaShop, WordPress) and REST/GraphQL APIs.
- Optimized application performance and managed databases (MySQL, PostgreSQL, MongoDB).
- Collaborated in Agile/Scrum teams and deployed applications on Linux servers.

Internship – Conseil Régional Souss Massa

April 2023 – May 2023 | Agadir, Morocco

- Developed a supplier management web application using Laravel.
- Designed intuitive, responsive user interfaces.
- Managed database operations and optimized inventory systems.

Education

B.S. in Computer Engineering & Embedded Systems

Faculty of Sciences, Agadir | 2024 – Present

DTS in Digital Development

CENTER MIXTE AGADIR – OFPPT | 2021 – 2023

Projects

Plant'print

Dec 2023 - June 2024

- Web app for creating plant posters with 1700+ outdoor and 100+ indoor varieties. Built with Symfony, Svelte, Twig, Tailwind CSS, jQuery, and TypeScript. (Team project at 4TechLab.)

eveho CMS

March 2024 - Dec 2024

- CMS platform for automotive dealerships simplifying stock and customer relationship management. Collaborated with 4TechLab and eveho teams using PHP/Symfony, Nuxt.js/Vue.js, and Tailwind CSS.

Parfumera

June 2024 - Sept 2024

- Prestashop project for a French beauty brand in Lyon, focusing on module overrides and a modern design.

S.M.A.R.T. Tourisme

April 2024 - May 2024

- WordPress project optimizing performance for Souss Massa's tourism sector.

4Tech Lab Website

Nov 2024 - Dec 2024

- Built the 4Tech Lab website from scratch using WordPress with a modern, responsive design.
